

SD-K980

DVD Player with
1080p Upconversion

LEADING THE WAY
IN HOME ENTERTAINMENT
INNOVATION

TOSHIBA

Leading Innovation >>>

Take advantage of a DVD player that can get the most out of your DVD collection. 1080p upconversion to near HD quality, the convenience of HDMI™ and REGZA-LINK®, and numerous playback options make the SD-K980 a great solution for your home theater needs.

ADVANTAGE

Video upconversion up to 1080p* resolution via HDMI takes your current DVDs to a new level, for an amazing viewing experience on today's HDTVs.

HDMI™ is a convenient, single cable AV connection. It transfers pure digital video and multi-channel audio to compatible home theater components and high definition televisions without scaling down or compressing the signal, keeping sound and picture quality pristine. This model also offers **REGZA-LINK® (HDMI™ CEC)***** which makes controlling multiple components easy. Just connect your player to other compatible devices using an HDMI cable, and then control them using one remote, no additional programming or setup required!

Multi-format playback** capability supports DVD-/+R, DVD-/+RW, VCD, SVCD, DivX®, CD-R, CD-RW, MP3 and WMA playback for true viewing flexibility.

Slim (43mm) chassis height is combined with a high gloss black acrylic panel, silver accents, and a bright front display designed to complement today's home theaters.

Carton Dimension (WHD) in.	18.7 x 3.35 x 10.24
Unit Weight	2.94 lbs
Carton Weight	4.22 lbs
UPC Code	022265001349

*An HDTV or HD Monitor with an HDCP capable HDMI or DVI input is required for video upconversion. To upconvert to 720p, 1080i, or 1080p resolution, a 720p, 1080i, or 1080p capable HDTV or HD Monitor (as applicable) is required.

**Some DVD-R/DVD-RW and CD-R/CD-RW discs may be incompatible due to laser pick up and disc design. CD-R/CD-RW discs must be recorded using CD-DA method for CD audio playback. The DVD player may not support some MP3/WMA/JPEG/DivX recordings due to differences in recording formats, disc structure, or condition of the disc (use of CD-RW for MP3 files is not recommended). See owner's manual for more information.

***Use of REGZA LINK, which is a feature based on HDMI-CEC, requires an HDMI-CEC compatible display device. Depending on the display device specifications, some or all REGZA LINK functions may not work even if the display device is HDMI-CEC compatible.
